SOUTHEAST ALASKA COMMERCIAL POT SHRIMP ANNOUNCEMENT FISHERY CLOSURE

Sitka... The Alaska Department of Fish and Game today announced the closure of the commercial pot shrimp fishery and the following information concerning the 2017/2018 winter season.

The following areas will close by regulation at 4:00 p.m., February 28, 2018:

District 4: Estimated harvest: 10,000 pounds, 10,000 pounds remaining. District 4 is expected to reopen by emergency order on May 15, 2018;

District 5: Estimated harvest: 9,700 pounds, 2,300 pounds remaining. District 5 may reopen by emergency order on May 15, 2018;

District 15: Eastern area harvest: 3,600 pounds, 3,900 pounds remaining. The GHF is 15,000 pounds divided equally between the eastern and the western portions of the district. District 15 is expected to reopen by emergency order on May 15, 2018.

The Department will announce areas open for the summer fishery no later than May 1, 2018. By May 1, the Department will have had time to analyze all available harvest and biological data for areas with remaining quota. Areas that are determined to have less than desirable stock health or areas that have low remaining quota will not reopen for the summer fishery.

All shrimp pot gear must be removed from the water or placed in storage by the time of the closure. Pots may be stored in the waters of Districts 4, 5, and 15 until 4:00 p.m., Wednesday, March 7, 2018. Stored pots must have all doors secured fully open and all bait and bait containers removed.

Shrimp tickets must be submitted to an ADF&G office within seven days of the closure. Fishermen are reminded that catcher sellers intending to sell shrimp to persons unlicensed to process shrimp (i.e. dock sales) must fill out an ADF&G fish ticket indicating the weight of the shrimp on board, by species, before any shrimp are removed from the vessel [5 AAC 31.143.(d)].

Catcher processor vessels fishing in these areas are required to contact ADF&G and report within 72 hours of the closure. Catcher processor vessels must report the pounds in whole weight by species of shrimp on board the vessel taken during the open shrimp-fishing period.
